Civic Education Questions from the Naturalization Test

Now you will find 100 civic education questions and answers (history and U.S. government) from the naturalization test. The civics exam is an oral exam during which the USCIS officer will ask you 10 of these questions. The applicant must correctly answer 6 of the 10 questions to pass the civic education section of the naturalization exam.

For the naturalization test, some answers vary and may change because of elections or appointments. Applicants should be aware of the current answers to these questions. Applicants must answer these questions with the advice of the officer or official serving in the position at the time of their interview with USCIS. The USCIS officer will not accept a wrong answer.

Although USCIS recognizes that there may be other correct answers to the 100 questions about civic education, we recommend that the applicant respond using the answers provided here.

AMERICAN GOVERNMENT

Principles of American Democracy

1. What is the supreme law of the nation?

The Constitution

2. What does the Constitution do?

It establishes the government

It defines the government

It protects the basic rights of American citizens

- 3. The first three words of the Constitution contain the idea of self-government (that the people govern themselves). What are these words?
